WHO WAS SIR WILLIAM ANGLISS?

Sir William Charles Angliss

Sir William Charles Angliss was a Melbourne-based butcher, pastoralist, pioneering meat exporter, businessman and politician. In 1940, he donated £20,000 to establish the William Angliss Food Trades School.

Over the decades, the school expanded beyond traditional food trades like butchery, baking and cooking to include hospitality, tourism and events. We're proud to continue to lead the way in these industries and build on Sir William Angliss' legacy now and into the future.

Once your Student Pack is signed, your Letter of Offer, Statement of Fees and Enrolment Instructions will be emailed to you within three business days.

Make sure you carefully read over the instructions, as your offer may include conditions before you can proceed to secure your place, such as:

- Students under the age of 17 (mandatory school age) will be required to provide a completed exemption from school application form and attend campus with a parent or legal guardian to complete the consent to admit an underage student process.
- Students under the age of 18 will be required to attend campus with a parent or legal guardian to complete the consent to admit an underage student process. Course offers are accepted via the online portal eStudent.

The Letter of Offer will include a lapse date, which is the deadline by when you must accept, defer, or decline. In most cases, you will receive your Enrolment Instructions at the same time as your Letter of Offer. Make sure you carefully review the Subject Guide and instructions to avoid over-enrolment into your course.

NEED HELP ENROLLING?

Your enrolment instructions include the option to book an assisted session with the Admissions team. You're welcome to bring a support person and you can also request referrals to Access and Disability support services.

HOW TO PAY.

The cost of your study depends on the course you choose and what's included. Your course fees cover tuition, but some courses may have extra costs for things like equipment, materials or student services. The total cost will vary depending on what you're studying.

What fees will you pay?

If you're an Australian or New Zealand citizen, a permanent resident or an asylum seeker, or a victim of human trafficking, you may be eligible for Victorian and Commonwealth government-subsidised training. This can significantly reduce your course fees.

Concession fees

If you hold an eligible concession card, or you're listed as a dependant on one, you may qualify for reduced fees on Certificate IV courses and below. If you identify as Aboriginal or Torres Strait Islander, you may be eligible for a tuition fee waiver across all vocational education levels. Concession discounts apply to government-subsidised training only.

Full fees

If you're an international student or don't meet the eligibility criteria for government subsidies, you'll pay full course fees. For exact costs, check the course page for the program you're interested in.

Other fees

Depending on your course, you may also need to budget for:

- Materials and equipment, such as learning resources, uniforms, or personal protective equipment
- Student services fees, which support access to campus facilities and services

What about Free TAFE?

If you're eligible for government-subsidised training in Victoria, you may be eligible for Free TAFE.

This means your tuition fees for approved courses are covered. Some additional costs—like materials or student services fees will still apply.

You might also be able to complete more than one Free TAFE course within the same pathway, helping you build skills and broaden your career options. Eligibility requirements apply. Find more information on page 32.

How can you pay?

We offer flexible payment options to make managing your fees easier.

Pay upfront -

Pay your course fees in full before your course starts.

Payment plans -

Spread your fees across your enrolment period on a direct debit payment schedule.

VET Student Loans -

If you're an Australian Citizen or Permanent Resident studying an approved diploma level or higher VET course, you may be eligible for a government-backed loan.

Fee-Help

For eligible higher education courses, such as bachelor degrees, associate degrees, graduate certificates and graduate diplomas, you may be able to access a FEE-HELP loan through the Australian Government.
